

# OMNI DRONE JAMMER : ATPL6B500W

ATPL6B500W offers TOTAL PROTECTION against intruding drones by JAMMING all the communication links and GPS of the drone. This system uses extremely powerful Radio Frequency Amplifiers to bring down the rogue drones at a long distance. ATPL6B500W offers OMNI-directional jamming and optional directional Jamming / vehicle based Jamming using directional /vehicle mount antennas

## 6 Frequency Bands: 5 Antennas

- ◆ 433 MHz, 915 MHz (Dual band antenna)
- ◆ 2400 MHz band, 5800 MHz band
- ◆ GPS L1 band, GPS L2 band

## Long Coverage for Jamming:

- ◆ OMNI-Directional: 500 meter
- ◆ Vehicle Based: 500 meter
- ◆ Directional antennas for extended range

<b>Power Supply</b>	AC mains
<b>Optional power</b>	1.6 KW genset for outdoor operation
<b>Jamming Technology</b>	Multi-spectrum Barrage Jamming
<b>OMNI antennas</b>	Wideband, High Power Dipoles
<b>Optional Antenna</b>	Log Periodic Dipole Array (LPDA) directional antennas for Extended range
<b>Vehicle Installation</b>	Wideband Magnetic Mount antennas for vehicle installation for Convoy protection
<b>Weather Protection</b>	Splash proof & Dust proof– IP65
<b>Warranty</b>	Standard 1 year replacement warranty
